Watershed Information

Basin area (square miles above culvert):	Amount of habitat available upstream: (m)
Stream flow: <input type="checkbox"/> Perennial <input type="checkbox"/> Intermittent <input type="checkbox"/> Unknown Source of information:	
Has a barrier inventory been conducted in the watershed? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, list source and date completed:	
Are there downstream barriers? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, describe. List source; use separate sheet if necessary:	
Are there upstream barriers? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, describe. List source; use separate sheet if necessary:	
Has the stream been walked? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, information source:	
Has a WDFW Priority Index number been calculated for this barrier? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, PI#:	

Fish Species/Use

Species present at site:	<input type="checkbox"/> Bull trout/Dolly <input type="checkbox"/> Resident Trout	<input type="checkbox"/> Chinook <input type="checkbox"/> Sockeye	<input type="checkbox"/> Chum <input type="checkbox"/> Steelhead	<input type="checkbox"/> Coho <input type="checkbox"/> Pink	<input type="checkbox"/> Cutthroat <input type="checkbox"/> Brook/Brown
Information source:					
Current fish use downstream from barrier (include source of information):					
Current fish use upstream from barrier (include source of information):					
What species and life history stages might use the habitat made accessible by the project?					
Provide a qualitative description (canopy and instream cover, channel stability and complexity, spawning gravel quality and quantity, human alterations) of the habitat that will be made available by barrier correction, if available. Include source of information:
